23. Problem: (use additional Sheets if necessary) Currently the M&O network has one autochanger with 3 drives and a 29 tape capacity (not including 1 cleaning tape). I would like to increase the number of tapes we have online as well as the number of available drives.						
24. Proposed Solution: (use additional sheets if necessary) The M&O system also has an extra license for an autochanger that can be used. On the ECS network we have a Storagetek 9730 autochanger that is unused (the same autochanger that we previously removed one drive from (EIN 6973). I would like to remove this autochanger from the ECS network and connect it to our M&O Legato networker server (EIN 14750). Moving this autochanger to the M&O network would increase the M&O server to having 6 drives and 56 tapes online.						
25. Alternate Solution: (use additional sheets if necessary)						
26. Consequences if Change(s) are not approved: (use additional sheets if necessary)						
27. Justification for Emergency (If Block 15 is "Emergency"):
